PROFILE

Experienced Product Designer specializing in UX/UI for mobile and web applications. Skilled in creating scalable design systems, leading UX research, and building intuitive. Known for aligning business goals with user needs through thoughtful, data-informed design, most recently at American Express and Amazon.

EXPERIENCE

Product Designer

American Express

Jul 2024 – Jun 2025

Designed UI and reusable components for a marketing automation product. Created interfaces that display AI-generated content, aligning business goals with content creators' workflows. Led user research efforts and implemented feedback to improve interactivity and efficiency across internal tools.

- Partnered with PMs to develop the company's first internal AI content tool.
- Designed the interface that integrates LLM-powered content generation into existing workflows.

UX Designer

Amazon

Jun 2020 – Jan 2024

Designed a workflow application for Amazon Grocery leads. Built and maintained a comprehensive design system including Figma libraries, branding assets, and documentation. Led UX for Amazon's EHS (Environmental Health & Safety) application, applying user research to improve usability and engagement.

- Solved fragmentation in Amazon's Fulfillment design ecosystem by creating a scalable design system.
- Led visual branding and collaborated with accessibility teams to ensure inclusivity across 50+ countries.
- Included support for a Grocery SaaS app used in restock logistics, end-to-end.

UX/UI Designer & Frontend Developer

Alliance Defending Freedom

Jul 2013 – Jun 2020

Built and maintained a full design system and coded responsive components using HTML/CSS. Developed consistent UI patterns and branding guidelines for marketing and web platforms. Created custom designs that increased donor conversions and email capture through clear storytelling.

- Lead digital design sprint for organization rebrand; managing assets, site architect, delivering pixel perfect mockups
